

IMPORTANT NOTICE REGARDING CITY OF PUEBLO WASTEWATER CHARGE

This notice is being provided as a reminder that the base period for determining your 2022 wastewater charge **ends in February**.

Your 2022 charge will be determined by averaging the water you consumed from the time your water meter was read in December until it is read again in February. Water used during this two-month period determines the volume portion of your wastewater charge, effective March 2022, for the balance of the year. **Water used from the time your meter is read in February until it is read again the following December has NO effect on the amount you pay for wastewater service.** If you irrigated during the two-month wastewater billing period, you may apply for an adjustment so that your irrigation does not increase your wastewater bills for the rest of the year. Log on to www.pueblowater.org to apply for an adjustment.

And always remember ...

The toilet is not a trash can. Many items marketed as disposable and/or flushable do not degrade like toilet paper, and they wind up clogging your service line, mixing with grease and clogging the city mains, tangling pumps and causing messy sewer backups into streets, businesses and homes. Please help protect our environment by not flushing items that can plug the sanitary sewer and increase treatment costs.

For questions regarding the wastewater rate, please call the City of Pueblo Wastewater Department at 719-553-2898.
For questions regarding water use or charges, please call Pueblo Water at 719-584-0250.
