

Pueblo's Water Works for YOU!

Your Board of Water Works has invested in a sound water system for the citizens of Pueblo - a system that meets today's ever-changing demands, produces excellent quality drinking water at a reasonable cost, and remains prepared to serve the needs of Pueblo's families and businesses now and in the future. To continue to accomplish these goals and meet its commitments, our water utility must remain in sound financial shape. In order to do so, the Board of Directors has approved increases in rates and charges for 2018 totalling 2.75%.

What does this mean?

For The Customer With 3/4" Service

- 💧 The volume charge per 1,000 gallons will increase by 7 cents, to \$2.73.
- 💧 The monthly minimum charge, which includes 2,000 gallons of water, will increase by 32 cents to \$11.91 (varies by meter size).
- 💧 The average residential customer's water bill will increase \$.95 per month to \$36.48, and is the lowest among Colorado's major front range cities.
- 💧 For the average household, water will cost less than four cents per day more in 2018 than it did in 2017 - a small price to pay for life's most precious resource.

No one expects prices on anything to go down, but **Pueblo's water rates remain among the very lowest of any Colorado city.**

Board of Water Works of Pueblo, Colorado Water Rates - Effective January, 2018 Billing
